Community Peace Radio Show #20

Date: 07 March 2009

Topic: International Women's Day

Participants: Voices and music of women from around the globe; Interview with Bob and Carrol Pearson about Amnesty International's actions on International Women's Day

Co-Hosts: Pat Leahan, Arielle Hawney

Summary: Discussion centers around the founding and history of International Women's Day (a global day celebrating economic, political, and social achievements of women -- past, present and future -- officially recognized since 1911). We play songs by women and in support of women from around the world (e.g., Mozambique, Native America, Mexico). We then shift into a discussion of the importance of women having their civic, economic, and social rights, and how that's in the best interest of everyone. Happy Women's Day!

The "official" recorded UWC-USA ad runs for the first time. Sounds great. Good job, Arielle and Kim. Very cool.
